Fire Prevention Week October 8th to 14th

Parents, Where Are Your Little Children?

Records compiled by the Dominion Fire Commissioner show that 35 small children met their death by fire in 1943 in Canada when left alone in their homes. Eight others died as the result of playing with matches. Altogether, 149 children perished by fire last year in Canada.

These tragedies are reported day after day in our daily papers, but beyond those immediately affected they do not seem to make much impression on the general public. Parents still insist on going out of their homes and leaving helpless little infants to fall prey to flames from overheated stoves and pipes. Others will leave children of two or three years of age alone, with matches within easy reach of their inquisitive little hands. Many parents say they would never get out to a movie or for other relaxation if they had to depend on getting someone in to look after their children these days. Wartime conditions have made this safeguard a very difficult one, they contend. What a price many have had to pay for a few hours of borrowed pleasure! Hearts that will remain hardened for a lifetime because of their neglect! Parents, if you truly love your children and if you assume your full responsibility in regard to their welfare, you will not leave your small helpless children alone in your homes to become the victims of the fire demon. Always make sure that there is some responsible and competent person left in charge of them or take them with you. Educate your children in the dangers of playing with matches or bonfires. Keep matches well out of their reach. Children can be taught fire prevention principles with very little effort. Therefore, lose no opportunity to safeguard your children against the ravages of fire.

Splendid Display Of Photos of Armed Services

The exhibition of photographs of service men and women, under the auspices of the Didsbury Detachment of the Calgary (R) Army Tanks, in the barber shop window, makes a wonderful showing and is attracting considerable interest.

Mr. A. W. Haley, who has charge of the display, tells us that there are over 100 photos at present but there are many more, and arrangements are being made to have them all on display this week.

Great credit is due the committee for their efforts in arranging the exhibition.

The committee wishes to thank Mrs. J. S. McCloy and Mr. Ed Watkin for their assistance in arranging the display.

Didsbury Teaching Staff

There were four new teachers on the staff of the Didsbury schools, when school opened on Monday last. The following is the personnel of the staff:

High School —
A. W. Reiber, B.A., Principal
Miss Willison, High Prairie
Miss Vickery, Taber
Intermediate School —
E. Wiggins
C. Flannigan
Public School —
Miss Innes, Hanna
Mrs. Dawkins
Mrs. Lynch-Staunton
Miss Wilson, Vancouver

Now Two Shows Each Week

Commencing this week, there will be shows each night except Wednesday at the Didsbury Theatre, with one picture on Mondays and Tuesdays and a different picture on Thursdays, Fridays and Saturdays.

On Thursday, Friday and Saturday of this week, the feature will be "Heaven Can Wait", with Gene Tierney and Don Ameche. On Monday and Tuesday the feature is "The Great Moment", with Harry Carey, William Demarest and Betty Fields.

5th GURKHA REGIMENT IN ITALY.

The Gurkhas are born soldiers, famous for the ferocity and fearlessness in action. Though excellent marksmen they are in their element in close quarters fighting. Their Kukris are much feared by the enemy.

Picture shows snipers in shell wrecked house: men of the 5th Gurkha Regiment operating with the Allied army in Italy.

Burglars Raid Adshad Garage

Sometime after midnight the Adshad Garage was broken into and tools to the value of about \$200.00, a small amount of cash and a quantity of cancelled gas ration coupons, were stolen. Russell Ady's shot gun was also among the stolen articles.

It is thought that the thieves got in through the back door of the show room. The Mounted Police are investigating.

Blood Donor Clinic

The Red Cross Blood Donor Clinic on Wednesday morning, October 11, will be held this time at the Didsbury Theatre. Mr. Sharp has kindly offered the use of the theatre for that purpose.

The Red Cross appreciate the response to their appeal for blood donors, and cards making appointment have been sent out. If some are not called for this clinic, it is because the quota has been filled. They will, however, be called in the future, as clinics will be held every three months.

Evangelical Church Notes

A Thanksgiving service will be held on Sunday, October 8th, at 10:30 a.m. Let us thank the Lord for all the blessings He has given us.

Sunday School will be held at Jutland at 2 p.m., and Rev. A. S. Wood, of the British and Foreign Bible Society, will speak at 3 p.m.

At 7:45 p.m., Rev. Man will speak in the interests of the Bible Society. After the evening service, he will conduct an organization meeting in the Evangelical church.

All are cordially invited to attend these services:

Proposed Change In Electric Rate

The proposal to change the domestic electric light schedule of rate was discussed by the Town Council on Monday night, when representatives of the Calgary Power presented the proposed new rate schedule. A number of ratepayers were present at the meeting.

It was pointed out that most of the towns in the province were now operating under the new schedule, which made a considerable saving to the users of electricity at large. In the case of Didsbury the saving would amount to approximately \$1200.00 per year on the basis of electric energy now used.

The present Domestic rate is as follows:

Service charge, per month 50c
Energy charges, per month—
1st 30 kwts., at 10c kw.
next 20 " at 5c
next 150 " at 2 1/2c
over 200 " at 1 1/2c
Discount 10%
Minimum \$1.50 gross per mon.
\$1.50 net per mon.

The proposed Domestic Rate:

A monthly minimum of \$2.40 net, which includes 20 kw. hours. For all over 20 kwts. per month one cent (net).

Below is a comparative statement of cost under the present and proposed new rate:

Kw. hrs.	Present Rate	New Rate	Diff.
13	\$1.50	\$2.40 x .90	
20	\$2.30	\$2.40 x .10	
30	\$3.20	\$2.50 — .70	
40	\$3.50	\$2.60 — 1.00	
50	\$4.10	\$2.70 — 1.40	
70	\$4.55	\$2.90 — 1.65	
100	\$5.12	\$3.20 — 1.92	
200	\$7.17	\$4.20 — 2.97	
300	\$8.63	\$5.20 — 3.43	
400	\$10.09	\$6.20 — 3.89	
500	\$11.65	\$7.20 — 4.45	

It was pointed out that a well signed petition by the electricity users would be required by the Wartime Prices and Trade Board before they would sanction the change in rate.

The council, by resolution, approved of the change, and such a petition would be prepared and circulated in the near future.

P.O. Advises Mail Early For Overseas

The time to mail parcels for members of the Armed Forces overseas is drawing near. Postmaster-General P. Mulock advises that it is time to start planning now. Parcels for those serving in the more remote theatres of war should be sent earliest. Here is the Department's suggested "deadline" dates: October 5th—The Middle East area, Egypt, Iran, Iraq, Syria, etc.

October 10th—Central Mediterranean Force

October 25th—The United Kingdom and France.

The World of Wheat
by H. G. L. Strange**FOOD RELIEF FOR EUROPE**

The United Nations Relief and Rehabilitation Administration—an organization set up to take relief to the people of Europe—are now starting to work. The greatest immediate need for food is in Greece, Italy and Yugoslavia. One expert states that "The infant mortality in Rome is 50 percent, and every tenth man or woman now walking on the streets of Rome will be a corpse before the end of the year".

The delegates from Ethiopia and France, countries which had suffered the most from Italian aggression, gave their approval of generous relief for the people of Rome and Italy.

The Food Research Institute of California tells us that in general the agricultural situation in Europe is far better than most people suppose. The main trouble, says this authority, is not so much the depletion of livestock herds, as it is that animals have been poorly fed and that, therefore, production from these animals has been low. Fats and dried milk will apparently be the chief need in most parts of Europe, but in certain large areas relief wheat and flour, it is expected, will be required for some time.

How fortunate it is that Canada and the United States have available surpluses of agricultural products which can be sent to all these suffering European people.

Agricultural Conditions

General: Cutting is well advanced, and until recent rains, threshing was progressing very satisfactorily. Slight frost occurred at several points but no serious damage is reported.

Field Crops: Reports to date show average of 90% wheat, 85% oats and 90% barley cut throughout the province. In the Peace River district cutting has been completed, but there is a wide variation in the progress of threshing. Some districts report 5% of the wheat threshed, and others 95%. Before the recent rains it was estimated that cutting in other parts of the province would be generally completed by September 25.

Despite the variation in yields of wheat in different districts (3 bushels to 35 bushels to the acre) the average for the province is estimated at 17.1 bushels per acre. Average yield of oats shows 39.9 bushels and barley 28.8 bushels. Grades of wheat vary from 1 to 3. There is a general tendency towards an increase in fall cultivation as a measure in the control of weeds and insects. The south eastern parts of the province report very poor crop yields. Shortage of course grains and hay crops in these districts will seriously affect the feed situation this winter.

Livestock: The month of July showed a slight increase in hog marketings from Alberta in 1944 as compared with 1943. In July, 1944, 206,367 were marketed from Alberta, and 266,394 in July, 1943. For the first seven months of 1944 very little difference was noted in quality of hog carcasses. The percentage of grades A and B from January to July, 1944, was 79.63%, while for the same period in 1943, 78.82% were graded.

You know, I always think it queer that such a land as this one here should have to coax and beg and plead for money for an urgent need.

Our loans, I grant you, end up strong—but how they crawl and creep along! And no one asked to GIVE a dime but just to LEND cash for a time! You'd think that everybody would be buying all the bonds they could to speed the day that sees our men brought back to Canada again.

And also help to make it sure—a good sound peace that will endure! Yes, sir, we ought to back this loan with every dollar that we own.

To stop right now and pare and prune would be to quit the job too soon.

IS PRACTICAL PATRIOTISM****How many ways can you save
.... to LEND TO CANADA?**

 In the homes, all over Canada, loyal, patriotic women are discovering new ways to economize... new ways to save money to lend to their country. A little saved here and a little saved there provides money to lend to Canada to help pay for the war. Small sums from millions of Canadians mount to billions when totalled up.

The amount that you may lend to your country may seem a small sum to you, but pennies make dimes and dimes make dollars, and Canada needs every single dollar that every Canadian can save and lend. Canada's need for borrowing is greater now than ever before. Every Canadian must lend, and lend more than before. Money you save and invest in Victory Bonds will benefit you in a personal way, too. You will have cash, when the war is over, to buy things you want for your home... things you are doing without now... cash to pay on a new home... to pay on a new car.

Alberta News Letter**Delivery of Barley.**

Delivery of Barley.—Where elevator space is available, barley can be delivered without marketing restrictions, according to an announcement by the Canadian Wheat Board.

Care of Shelter Belts.

Care of Shelter Belts.—In order that farm shelter belts may be maintained in a healthy condition, a cultivated strip of ground should be maintained on either side, is the advice of John Walker, superintendent of the Forest Nursery Station at Indian Head, Sask. These strips of cultivated land should be as wide as the heights of the trees in the shelter belt.

Should Finish Cattle.

Should Finish Cattle.—The Alberta Department of Agriculture points out that only well finished cattle can be disposed of at fair prices in the Calgary and Edmonton stockyards at the present time. There is virtually no demand for thin cattle and the department suggests they should be held over and fed on farms so that they will come on the market after the New Year. It also points out that if Ontario farmers consider it good business to buy western feeder cattle and then buy western grain to feed those cattle, it should pay Alberta farmers to combine these two products right on their own farms.

Thresher's License Not Needed.

Threshermen in Alberta do not have to obtain a threshers' license before commencing operations. In March of this year the Threshers' Lien Act was amended and although protection of threshers by Threshers' Lien still remains in effect, it is no longer necessary to obtain a permit for the operation of a threshing machine in Alberta.

Rugby Notes

The Rugby Victory Club held a special meeting at the home of Mrs. Jan. Hoesgood. Quilt blocks were made and distributed. Blood donors were solicited. Mrs. Albert Krebs offered to have the November meeting.

It was decided to hold a wheat drive on Friday, October 27, at the home of Mr. and Mrs. Harvey Hoesgood.

Passes at 101 Years.

Sir William Mullock, former chief justice of Ontario, sole surviving member of Sir Wilfred Laurier's original cabinet, and known as "Canada's Grand Old Man," died in his sleep at his Toronto home on Sunday at the age of 101 years.

Sir William, who only last January was the centre of attraction at a number of functions in honour of his 101st birthday, had not been ill, but had a nurse in attendance at his home. His grandson, Col. W. P. Mullock, Dominion Postmaster General said he "slipped quietly away at 7:30 a.m. on Sunday."

He was Postmaster General for nine years and became known as the father of the Empire penny postage.

Trees are Valuable.

Trees are Valuable.—In New York the American Chemical Society has heard some interesting predictions about the future uses of American forests. Dr. Robert Aries of Yale University, told of discoveries which he predicts will make forests the sources of rubber, alcohol, dyes, baking powder, tooth pastes, medicines, paints, perfumes, chewing gum, plastics, sugars, yeast and ink. He says that when lumber alone is made from trees, more than half the wood is wasted. He predicts that lumber will be used less and less as trees are turned into more valuable things.

Into One Pocket—Sure!
 but OUT of the other

Each of us is both consumer and producer.

As a producer each of us would like to get MORE money for our goods or services.

As a consumer each of us wants the costs of living kept down.

But we can't have it both ways.

As long as goods are scarce and money plentiful, prices have to be
 controlled or they'd jump sky high.

If prices are to be kept down, then costs of production including salaries,
 wages and raw materials must also be controlled.

One Person Can Start It!

When any one of us—

- offers to pay more than legal prices;
- asks higher returns for his services;
- asks higher prices for his goods.

He helps start a chain that forces every one else to do the
 same and nobody is better off.

THIS IS ONE OF A SERIES ISSUED BY THE GOVERNMENT OF CANADA TO EMPHASIZE THE IMPORTANCE
 OF PREVENTING FURTHER RISE IN THE COST OF LIVING NOW AND DEFLATION LATER.
